SKILLS

Programming Languages:

- Python
- C
- C++
- JavaScript

Web Development:

- React Js
- HTML
- CSS
- Node.js
- Express.js

Database

Management:

- SQL
- MongoDB

EDUCATION

BTech CSE Core
Intermediate (Pre-Engineering)
Secondary

SRM *University, Kattankulathur*
Narayana Junior College
Dr.KKR Gowtham High School

CGPA: 8.8 (2021-Current)
percentage: 88
Percentage: 82

EXPERIENCE/PROJECTS

QR-Generator:

- "QR-Generator" is a React-based project designed to simplify the creation of QR codes for various purposes. The application streamlines the process of generating QR codes by providing an intuitive user interface and leveraging the power of React. Users can effortlessly create dynamic QR codes and customize their appearance, all within a user-friendly environment.

Movie Recommendation System:

- Developed a project focused on recommending movies based on their interest, applying principles of cosine similarity and cosine distance, python pandas and NumPy

Contact Manager:

- "Contact Manager" is a React-based project developed to facilitate efficient management of contacts. This application simplifies the process of storing and organizing contact information by providing an intuitive user interface. Leveraging the power of React, the Contact Manager ensures a seamless and responsive experience for users.

LEADERSHIP, ACTIVITIES, & SERVICE

Committee Head- Directorate of student affairs:

2023-current

- Consolidated fest logistics and streamlined processes as committee head, resulting in a 30% reduction in setup time and improved event efficiency for 700+ attendees.

Committee Member:

2022-2023

- Engaged as a committee member in the DSA Club, actively contributing to its activities and initiatives.
- Utilized social skills and creativity to design and organize events that had a positive impact on the community.

AWARDS/CERTIFICATIONS

- Participated in Hackathons and Coding Contests
- Python core concepts essentials
- Full-Stack Web Development
- SQL Mastery
